

Google Scholar: Setting preferences for library full text

When in search for academic literature you might want to use **Google Scholar**, but not all materials listed in Google Scholar are freely accessible, quite a lot of content is still behind a paywall.

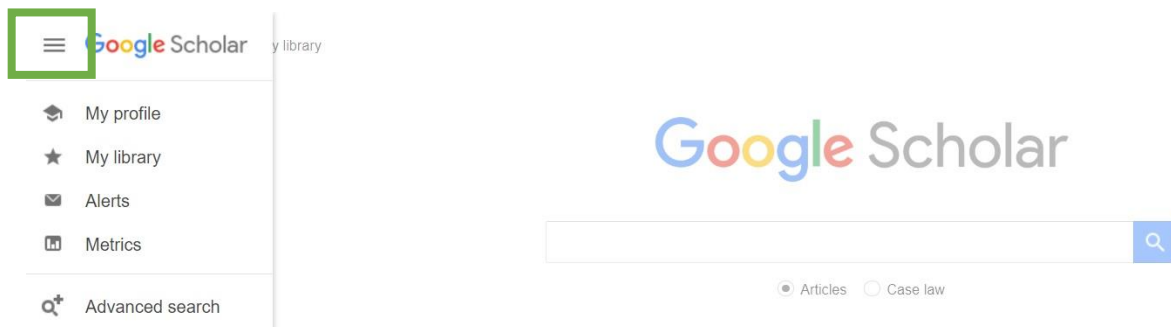

However, Google Scholar allows you to connect with our library subscriptions! By setting-up your Google Scholar preferences, **you will see a link to the full text at Vlerick Library**.

Find below a manual on how to set-up your preferences.

In case of questions/ remarks, please contact library@vlerick.com.

STEP-BY-STEP MANUAL

1. Go to <http://scholar.google.com>.
2. Click on the menu (3 bar icon) and select settings.

3. Click on 'Library Links'.

Online access to library subscriptions is usually restricted to patrons of that library. You may need to login with your library password, use a campus computer, or configure your browser to use a library proxy. Please visit your library's website or ask a local librarian for assistance.

Google Scholar: Setting preferences for library full text

- Search for “Vlerick Business School” and select it. In case you have access to content elsewhere, you can also search and add up to 5 other libraries.

The screenshot shows the Google Scholar Settings page. On the left, there is a sidebar with options: Search results, Languages, Library links (highlighted in red), Account, and Button. The main content area is titled "Show library access links for (choose up to five libraries):". It features a search input field containing "Vlerick business school" with a magnifying glass icon to its right. Below the input field, there is a checkbox labeled "Vlerick Business School - Full Text Vlerick" which is checked. A green rectangular box highlights the search input field and the checkbox. Below this section, there is a paragraph of text explaining that online access to library subscriptions is usually restricted to patrons of that library and may require login with a library password, use of a campus computer, or configuration of a browser to use a library proxy. At the bottom right, there are "Save" and "Cancel" buttons. Below the buttons, a note states: "To retain settings, you must turn on cookies".

- Click the ‘save’ button.

- Once you have the library links set and you do a search, you will see links to ‘Full Text Vlerick’.

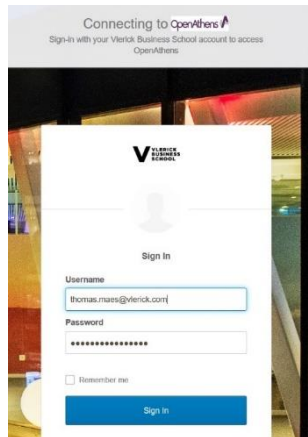

The screenshot shows the Google Scholar search results page. The search bar at the top contains the text "balanced structures designing organizations for profitable growth". Below the search bar, there is a sidebar on the left with filters: "Any time", "Since 2020", "Since 2019", "Since 2016", and "Custom range...". Below these filters are options to "Sort by relevance" and "Sort by date". The main content area displays a search result for "Balanced structures: designing organizations for profitable growth" by S Raisch, published in Long Range Planning, 2008, Elsevier. The abstract text is visible. At the bottom of the result, there are icons for a star, a link, and a document, followed by the text "Cited by 175 Related articles All 10 versions". On the right side of the result, there is a green rectangular box highlighting the text "Full Text Vlerick".

IMPORTANT NOTE:

A new set-up will be required 1) when you’re clearing cookies and/or 2) when switching to another browser.

Google Scholar: Setting preferences for library full text

- When clicking the 'Full Text Vlerick' link, you are redirected to our EBSCO link resolver. If you didn't already use one of our databases and logged in with Okta into OpenAthens, you will be asked to login.

- Once you are logged in, you get an overview where you can see in which of our databases the article is available. If an article is available in more than one of our databases, you will see more 'view this article' links. Click on one of the links.
