

FT ePaper App User Guide

award-winning FT content on the go

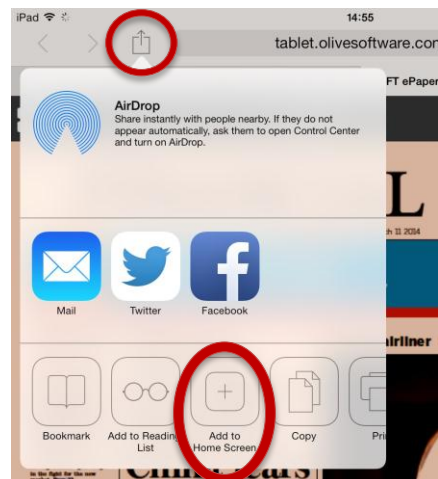

What is the FT ePaper App?

The FT ePaper App is the full electronic version of today's Financial Times printed newspaper.

The ePaper app is optimised for use on your Android and iOS tablet. It is available via your browser (Safari, Chrome, etc) at <http://ftepaper.ft.com> rather than from your app store. Please note that the ePaper App is currently a BETA version.

How to install the FT ePaper App?

- Go to <http://ftepaper.ft.com> on your Internet browser on your tablet: this will open the FT app
- Choose your edition and log in using your usual login details
- Save the app and create an icon on your home screen:
 - On iOS: click on the Share icon and choose "Add to Home screen"
 - On Android: click on Settings and choose "Add shortcut to home"

How to use the FT ePaper App?

- Swipe to turn pages, tap or double-click on articles to read them more comfortably, double-click on the text to adjust its size and choose between "original view" and "dynamic view"
- Download the ePaper for offline reading (2)
- Quickly access back issues (1)
- Digest: overview of the content (3)
